GRAPHIC AND DIGITAL DESIGNER

I'm Mia, a graphic and digital designer. I am an enthusiastic visual designer, curious learner and a great graphic pieces collector. I love working and learning from others as well as enjoying time by my self. Aside from design my other passion is travel, and learn from other people and cultures. My work revolves around a strong communication and a solid grid based design. My visual approach aims to be straight forward, content focused and well-thought. Embracing the use of distinguished typography and the absence of color to empower contrast and simplicity.
